PROJECT EXPERIENCE

Auditorium Event Management System (C#, Visual Studio, MySQL Workbench)

- Developed a database-driven event booking system.
- Implemented user authentication and role-based access.
- Designed and managed a MySQL database for customer, booking, and payment records.
- Created CRUD operations and automated sales calculations.

Cafe Rush (three.js, JavaScript, WebGL)

- Developed a 3D browser-based cooking-simulation game.
- Built the full 3D scene and interaction logic in three.js, including camera, lighting, and object interactivity

Eclipsa — VR vs. PC (Unity, C#)

- Developed game mechanics and gameplay systems using Unity and C#.
- Created and integrated character animations using Mixamo, Blender, and Unity to enhance gameplay and player feedback.
